

5 essential things you need to know about Making Tax Digital

TSG is helping hundreds of customers not only understand the implications of Making Tax Digital on their business, but also in becoming compliant.

We have one of the biggest specialist NAV teams in the UK and have been working with Microsoft to help shape your compliance.

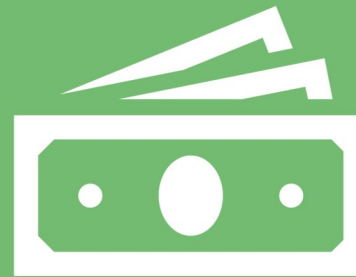

What is Making Tax Digital?

Making Tax Digital (MTD) is a HMRC-driven initiative to digitise the UK tax system. Businesses that are above the VAT threshold of £85,000 must submit their VAT returns and keep digitised records using MTD-compliant software.

Who does MTD apply to?

MTD applies to all VAT-registered businesses with a turnover above the VAT threshold, including unincorporated businesses, companies, LLPs and charities.

How much will this new functionality cost me?

For customers on Dynamics 2015 or later versions, the MTD functionality is totally FREE!
For customers on older versions, TSG is working as part of a consortium to create a solution, which will be announced in due course.

What do I need to do?

You should get in touch with our TSG as soon as possible. You'll need to book a half-day with our experts to understand the scope of the work required to implement this functionality. Visit www.tsg.com/tax to book now
