Office 365

My cash flow improved,  
my admin reduced.  
GoCardless.  
This is my office.

GOCARDLESS

 Integrated with Sage

GoCardless, the UK's leading Direct Debit provider, provides a simple way to get paid on time, every time. With GoCardless for Sage you can automate payment collection and reconciliation to improve cash flow and reduce admin.

### Get paid on time

Automatically collect payments on the invoice due date.

### Reduce admin

Save time spent chasing late payments and reconciling your invoices.

### Transparent pricing

1% per successful transaction, capped at £2 (min20p). No hidden charges or minimum term.

# GOCARDLESS

 Integrated with Sage

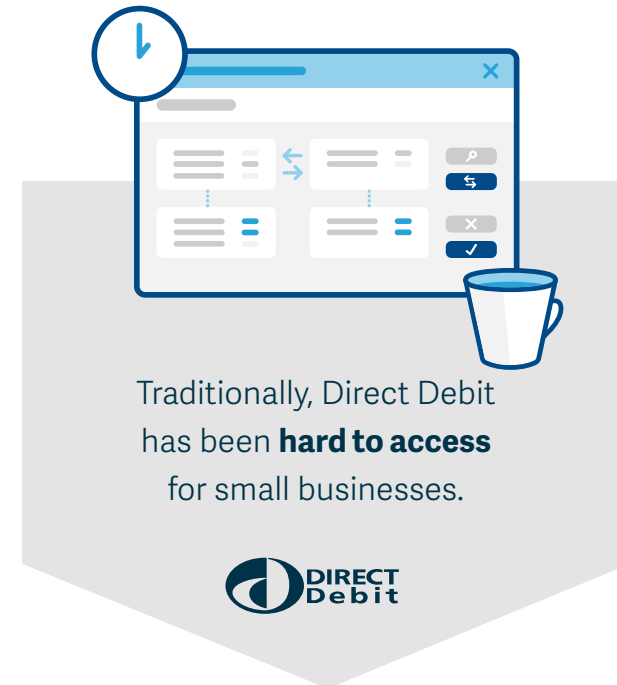

GoCardLess integration not only makes it easier for your customers do business with you, it also allows them to pay you faster with both regular and one-off payments via Direct Debit.

## Hassle free payments

GoCardless for Sage is designed to take the hassle out of regular billing. A deep integration with Sage combined with real time notifications puts you in control of your cash flow and customer relationships. The seamless integration makes it simple for you to automatically collect and reconcile payments with real time updates on payment status.

## More time to focus on growing your business

GoCardless for Sage is here to support your business. Automating your payments eliminates cash flow concerns and reduces admin overheads. The average small business in the UK spends 10 hours a week chasing late payments. Think what you could do with those extra 3 weeks a year!

**GoCardless** has changed that:

**25,000+**

businesses use the service every month.

**£3Bn**

processed every year as of May 2017.

**Integration is simple and it's free.**

Contact your business partner to find out more.
